Sail,

I have truly enjoyed being a classmate of yours. You're a very cute and dear person. May you always have the best in life.

Love Ya!

With our school days coming to their close, we pause to look back upon the friends and the happiness we have had. Our last year has been one filled with many experiences which we shall never forget. The joys, the sorrows, the fun, and the hard work - these are all parts of our memories. In the 1965 Pirate we have tried to preserve for you through pictures these wonderful memories of Winfield High School.

EDUCATION

Education begins in the cradle and ends at the grave. Since the very beginning of this country, high priority has been placed on knowledge, reason and understanding. The concept of self-government demanded that the electorate have sufficient education to enable them to understand the issues they were called upon to decide and to consider in a rational manner. Education has given people a new sense of freedom. It gave them powers with which to reason, abilities to make better choices, and a sense of mastery over their own lives and possessions.

This is an age of urbanization, of science, of technology, and of unusual social change. Education allied with other traits which make up character: moral courage, honesty, deep seriousness, a firm sense of principle and candor is a prerequisite of every member of today's society.

DO SIMPLE THINGS COUNT?

We are living in an era when more changes, economical, political, social technical, scientific and maybe moral, are being recorded on the pages of history at the fastest pace ever known to man. Research reveals that the sum total of all information is being doubled every 15 years. Through research we have also found 90% of all the great scientists are living today. In our schools we are training boys and girls for jobs that do not even exist.

Have I mentioned enough of the present trends to justify the demands for excellence made on you by parents, schools, and society? The society of tomorrow will be looking for the uncommon and not the common. A person must dare to be uncommon.

However, is it possible for us to spend so much of our time on the big issues of life that we lose sight of the simple things? Do we even get to the point that we can't see the trees for the forest?

I believe, irrespective of the changes in society, we should use a little more of our time every day to be Holy, to think, to be courteous, to be grateful, to be humble, and maybe just a little time to laugh out loud. Yes, it is very important that you prepare yourself to live, but don't forget you are now living in the present.

Statistics of Senior Class of '65

As statistician, I have come to the conclusion that these statistics are not only true, but unbelievable.

Forty one of ninety-eight students who started in the first grade in 1953 are seniors this year at Winfield High School.

The total weight of the senior class is 11,199 pounds. The girl's average weight is 117 and the boys' is 158.

The girls' average height is 5'5 1/2" and the boys' is 5'9 1/2".

There are 18 girls who have brown hair, 9 blonde, 7 black, 5 red, and 3 frosted.

Twenty-six boys have brown hair, 10 black, and 9 blonde.

29 seniors have blue eyes, 36 brown, 21 green, and 1 hazel.

21 girls have fair complexion, 9 medium, 5 dark, 3 creamy, and 2 speckled, and 2 olive.

22 boys have fair complexion, 16 medium, 12 dark, and 5 say they are going to Selma.

The average shoe size of the girls' is 6 1/2; and the boys' 9 1/2.

More girls were born in November and March than in any other months of the year. More boys were born in June and October.

Favorite class foods range from crackers to sow belly and gopher gravy with steak as the top favorite.

The favorite beverage if the drink you can buy most anywhere, the Well-Known-Coke. The runner-up is the beverage most people buy in the adjoining state.

Blue is the favorite color by an over-whelming majority.

26% wear glasses.

25% integrate school by wearing black hose.

29% admit they still wear longhandles.

And now to the Romantic status of the class. 5 are married, 9 are engaged, 28 are going steady, 12 burning brightly, 22 are still looking, 8 mixed up??

59 seniors still have their rings.

15 say theirs are gone.

13 go around with their hands in their pockets.

45 admit having played hookey.

26 say they haven't

18 plead the 5th Amendment

Since 70% have the cancer-stick habit, 15% say they had rather switch than fight.

45 have forged excuses

25 say they haven't

19 plead the 5th Amendment

60% admit they have wrecked either slightly or seriously.

25% are good drivers

15% plead the 5th Amendment

79% are fans of the University of Alabama

18% made Auburn the runner-up

The favorite radio station is WLS in Chicago with Art Roberts as the favorite D.J. WVOK and Joe Rumore were the runners-up.

You may want to work out your own percentages, but my figures show that on the average Saturday night, you would find about 48% parked at the M & I Parking Lot, 18% at Eighth Loop North, 7% at Moss' Bottom, and 14% last seen headed WEST!!

Class History for the Seniors of 1965

It was an awfully frightened 98 soon-to-be first graders who came up to the nearly new Winfield Elementary School building in August of 1953. This was a new experience for most of us, especially when those doctors made us undress in all that mixed company.

We all survived, save the embarrassment, to go on into the learning process of which we had heard many remarks pro and con. The people who were to guide us on this pioneer adventure into education were the veteran teachers, Miss Aston and Mrs. McCaleb, and a new teacher who had both first and second grade students, Mrs. Hill.

The second, third, and fourth grades were fairly calm ones except for a moment of greatness achieved when Mrs. Moore put on the Christmas play in the old high school auditorium. I don't know how the audience liked it, but we had to have been great!

Our first encounter with what we thought was a really tough teacher occurred when Mr. Dillard moved down from the High School to teach the fifth grade. We soon learned that he wasn't so hard as we had expected.

The sixth grade was a new experience, our preparation for High School! We learned many lessons from how to weave a basket of reed to how not to act in the lunchroom. The latter we learned the hard way.

Our proudest moment of the sixth grade was when we elected our first maid to the Homecoming Court. The class selected Patsy Tyree, and I believe just about everyone of us was there to see her march across the field with Landy Aldridge, the lucky devil!

After what I know had to be the best sixth grade graduation in history, we moved into High School. Those bells and the confusion of six classrooms still haunt me.

Some of us remember the four periods a day we spent in Mr. Duncan's room in the eighth grade. We'll never forget that Walsh Handbook and the hours of drudgery we spent on the Civil War, but all of this was forgotten when Jaretta Goolsby and Judy Hollis were elected as cheerleaders from our grade.

The ninth and tenth grades went along easily. We were privileged to elect the subjects we wanted, finally.

The eleventh grade was an eventful time for us seniors-to-be. We were the first class of Winfield High School to order class rings in the spring, and the first to get a new design for our rings. In fact, we were a class of firsts, of which the majority we had rather not talk about.

As August of 1964 rolled around there was a mighty happy bunch of seniors coming back to school for the last time. Our first semester was a time of anxiety. We were always waiting on something - on rings, on senior pictures, on test scores, on report cards, on invitations, and especially on graduation. Along with the anxiety were our periods of superiority, joy, and gratitude.

We experienced our greatest joy when we selected Thyra Price as our Homecoming Queen with Pat Guin as the Maid of Honor. They were undoubtedly the most beautiful girls in the world on that night they marched across the field. We experienced a feeling that no one but seniors could have.

The time finally came around for us to elect superlatives, choose our colors and flower, and elect our speakers for the Junior-Senior Banquet.

I guess you would say this has been a rewarding 12 years for all of us seniors, especially for the 41 who started and stayed together for that long existence. Our class has lost and gained many fine students, some outstanding, all memorable, but we are still as closely knit as the original 98.

When we graduate a bond will be broken and we will scatter to the ends of the earth, but we will never forget the great times we made and lived.

May all of us live happily by our motto, "Laugh often and love much."

Harvey Trull
Historian
